## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4 and 6, drawn to a method.

Group II, claim(s) 5 and 7-10, drawn to a device.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The shared special technical features, bonding a hanger hook to the stem through adhesive, are old in the art because Conran (GB 2328369) discloses bonding a hanger hook to the stem through adhesive (page 4 paragraph 3).

2. **It is noted that claims 6 and 11 are improper multiple dependent claims because a multiple dependent claim may not refer to any other multiple dependent claim.**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Emily Chimiak** whose telephone number is **(571)272-6486**. The examiner can normally be reached on Monday-Friday 8:30-5:30 EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Crispino can be reached on (571)272-6486. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
